1	cheney heiniemi	No	01. CONSENT AG Info only	New Orleans is my adopted city, as i am originally from minnesota. I served in Belle Chasse from 1990 to 1997. What i find as a politician in the last 30 years can live with themselves. The streets of this this city are terrible and you have all year to fix them. When snow melts they are working on the roads very year, but basically 4 to 5 months a year they can do no roadwork. so how can they remain thw worst of any city i have ever seen. very sad. I don,t understand how all government works, but have heard that the taxes from the city, that needs to stop, or new orleans needs to get creative on how to fix the pothole issue. sincerely c
