II. PROJECT DESCRIPTION

This is a property located in the Faubourg Marigny Historic District. The property was built sometime around 1895 according to Sanborn Maps. The property has been a **Bed and Breakfast** with 8 principal bedrooms and a 9th bedroom for the Innkeeper since 2012. The renovations include needed repairs so the property can re-open and continue to serve the area as a Bed and Breakfast for tourism. The renovations include new walls, cabinetry, countertops, painting, flooring, tiling, lighting, and plumbing. There were previous renovations in 2024 to correct the property to become a single-family home by consolidating the 2 meters into 1 and re-roof as needed. The new hires needed for the Bed and Breakfast to reopen include 5 positions including inn keeper, maintenance, and cleaners totaling a projected \$215,000 in payroll. Renovations also included 30 construction works over the duration of the project. The BnB is projected to contribute \$22,500 in sales tax revenue from nightly rentals.

- Estimated engineering = \$0

- The estimated grand total of the entire project = \$191,851

Meets minimum renovation of 25% of the pre-improved assessed value of the existing structure ($\$171,770 * 25\% = \$42,943$) = Yes

VII. PERMITS (see exhibit 7)

Declared Building Permit Job Value = \$191,851

(materials, machinery/equipment, and labor are reported at \$191,851 and are fully reflected in permitting records as required)

VIII. OTHER FINANCIAL RESOURCES

Additional Tax Breaks and Financial Incentives pursued by the Applicant:

- None Reported

IX. VALUE OF TAX ABATEMENT (see exhibits 2 and 3)

Assessor's Office and Bureau of Treasury Information:

(based on 2024 Pre-construction Tax Year)

- Improvement/building assessed value pre-renovation to be considered for tax abatement = \$171,770
- If awarded the RTA, the owner will pay property taxes at the total pre-improved assessed valuation (\$192,250) of the building for 5 years
- The amount of ad valorem (property) taxes paid on this property for the year prior to construction: \$25,760
- The projected total post-renovation assessed value is estimated at \$270,000 which reflects a significant increase in property value (estimating roughly \$36,040 [\$249,520 - post building assessment] in post-renovated taxes)
- 45% increase in assessed building value forecasted resulting from project improvements (increasing from \$171,770 to \$249,520)
- Property Taxes Paid 1st Year Post Incentive: \$82,743 (based on C.B.A.)
- Estimated Annual Sales Tax Revenue: \$450,000
- Applicant's Property Tax Status is currently "up to date"

Estimated Incentive Value | ASSESSOR'S OFFICE Formula:

- 5-year estimated recipient tax benefit is valued at \$52,089; value based on the property's pre-assessed value and a post-projected assessed value (if land value remains unchanged)
- 5-year estimated cumulative deferred building assessment valued at \$388,750

X. LABOR MARKET IMPACT

- The estimated number of *construction jobs* is 30
- The estimated number of *permanent jobs* created is 5 (*Orleans Parish*)

XI. DBE PARTICIPATION STATUS (see exhibit 4)

Upon Office of Supplier Diversity's review of 1419-1421 Dauphine Street, the following assessment was determined:

DBE Commitment to 35% Goal: 75% DBE Utilization
Verified DBE Subcontracting Contract Value: \$143,451
DBE Firms: 1

OSD has determined *compliance* with the goals set forth by Code of the City of New Orleans §70-432.1 (See OSD letter below). Clementine Construction, a certified LAUCP, was the General Contractor on the project and achieved 75% DBE participation.

XII. IMPACT MODEL / COST BENEFIT ANALYSIS (CBA) SUMMARY (see exhibit 5)

The ratio of the project's *Net Impact (inclusive of the General Fund and Public Benefits)* to the project's Total Local Incentive Value is 2.4x (exceeds the threshold of "1"). This positive ratio indicates that, during the five-year RTA period, the anticipated public benefit (new sales tax collections) of the project outweighs the anticipated public cost (forgone increased property tax). The net impact figure includes general fund tax collections and other public benefit taxes.

XIII. HIRE NOLA/LIVING WAGE

Office of Workforce Development's Validation Report confirms compliance.

XIV. PROJECT ASSESSMENT SUMMARY (see exhibit 9)

The OED determined that the Application satisfies all requisite program criteria set forth in La Admin Code Title 13 Chapter 9 R.T.A. and RTA Council Resolution R-25-274.

XV. RTA COMMITTEE RECOMMENDATION

The RTA Review Committee unanimously agreed in favor of this bed and breakfast project (5-0) based on compliance with all local criteria. With that, the committee has recommended **approval** of the tax abatement.

RESTORATION TAX ABATEMENT COST BENEFIT ANALYSIS

FEBRUARY 19, 2026

RTA# 20250130; ADDRESS: 1416-21 DAUPHINE STREET

With the utilization of a project assessment system, the City of New Orleans is able to estimate the impact of potential new businesses and new developments in the City. The system estimates economic impact, real estate impact, and fiscal impact. The information and observations contained in the project assessment system report are based on present knowledge of the components of development, and of the current physical, socioeconomic and fiscal conditions of the affected areas. Every reasonable effort has been made to ensure that the data contained in the study reflects the most accurate and timely information available. The study is based on estimates, assumptions and information from various research efforts. The analysis is intended only to aid in making policy decisions relative to its economic development strategy. No warranty or representation is made so that any of the projected values or results contained herein will be achieved.

Per a review of the applicant's Restoration Tax Abatement (RTA) Program Cost/Benefit Analysis Form for the above-referenced project, a summary of projections calculated using NOLABA's project assessment system is presented below.

The ratio of the project's **Net Impact** (A) to the project's Total Local Incentive Value (E) is **2.4x**. This positive ratio indicates that, during the five-year RTA period, the project's anticipated public benefit of new sales taxes outweighs the anticipated public cost (forgone increased property tax). The net impact figure includes all taxes and fees paid to the City's general fund (sales tax: 2.5%) and all public benefit taxes¹ allocated to public entities and organizations that benefit the city as a whole.

The net impact ratio includes general fund tax collections and other public benefit taxes, thereby capturing the largest possible impact of the project.

In year six, assuming there is no extension to the RTA, the project will generate **\$82,743** in public revenue (\$25,760 paid in property taxes the year prior to improvements).

Project Impact Summary	5 Year Total	5 Year Annual Average
A. Net Impact of the Project ²	\$138,233	\$23,039
B. General Fund Net Impact ²	-\$14,968	-\$2,495
C. Direct Property Tax Paid to City of New Orleans ³	\$141,121	\$28,224
D. Total Direct Sales Tax Generated ²	\$195,563	\$32,594
E. Total Local Incentive Value ³	\$58,400	\$11,680

¹ Public Benefit taxes include the following: For sales tax revenue, the portion that is allocated to Regional Transit Authority (1%) and Orleans Parish School Board (1.5%); for hotel tax revenue, the portion that is allocated to Louisiana Stadium and Exhibition District (4%) and New Orleans Exhibition Hall Authority Tax (3%).

² These figures are intended only as a general guidance as to how the City of New Orleans could be impacted by the selected development. The figures are based on the current economic structure and tax rates of the City of New Orleans and various operating and financial assumptions. The net impact differs from the general fund impact and includes other public benefit of taxes generated for local public entities.

³ These figures reflect the City of New Orleans millage rates for the year prior to construction and do not take into account any special taxing district or security district fee or millage.
